## THE HIT LIST

Get out and celebrate nature

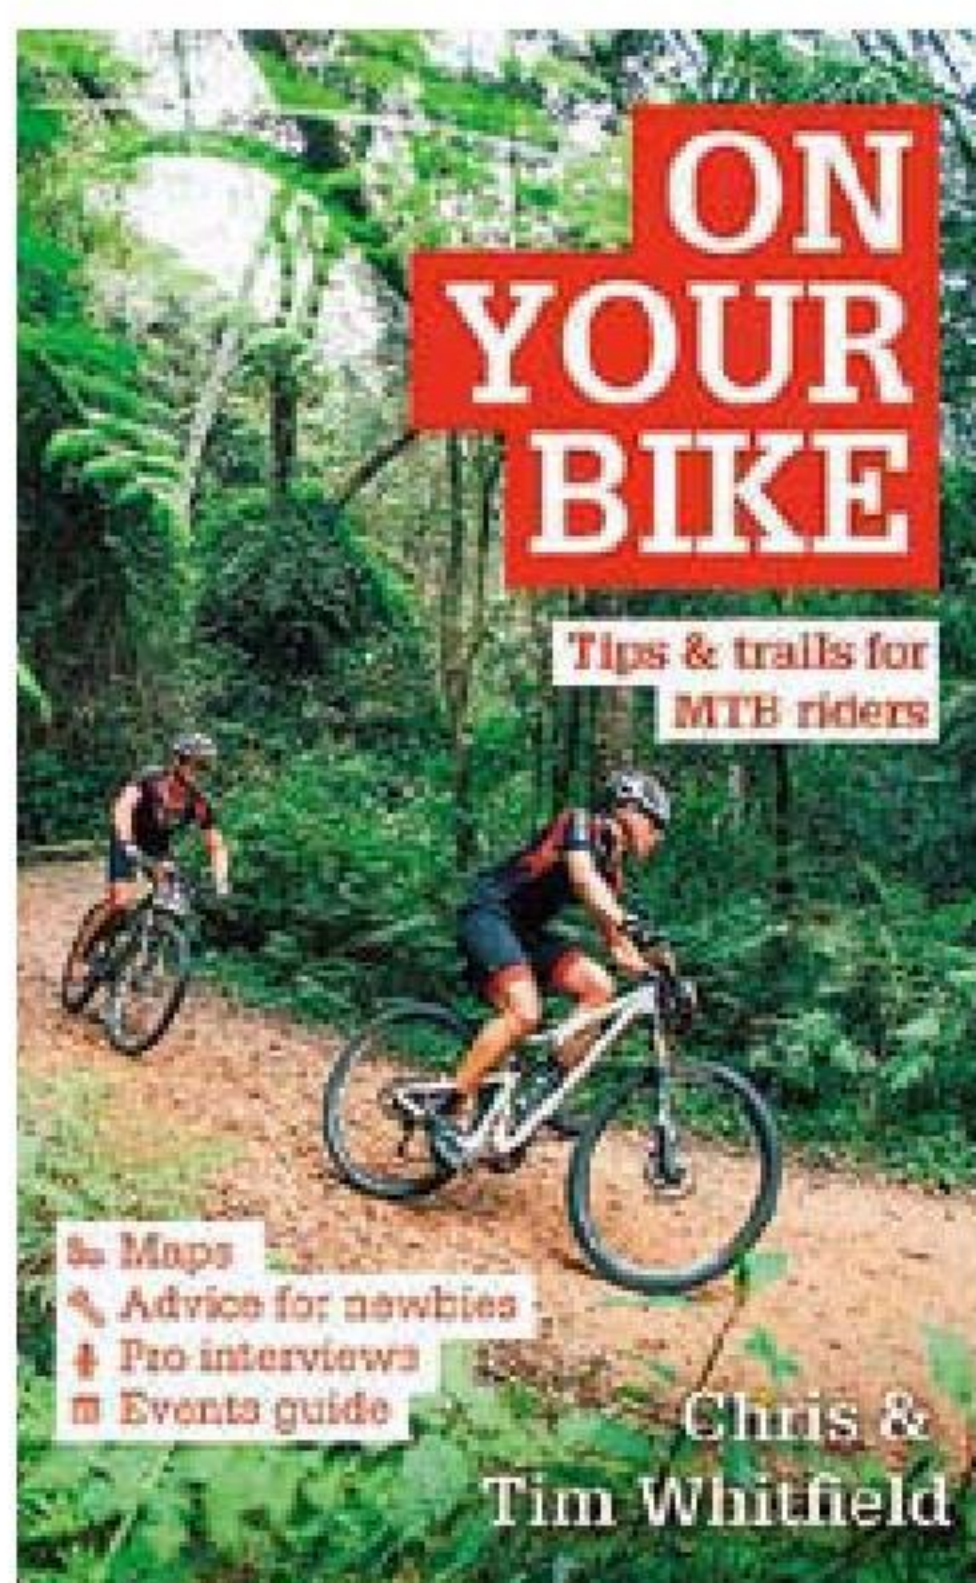

### THE DRINK

A gin with a difference you say? A gin that's quintessentially South African? We're in! Wixworth distillery has released a small batch gin infused with Renosterbos, an indigenous shrub found in abundance in the Renosterveld. When infused with the finest traditional botanicals, the delicate floral and sweet pine flavours, together with the subtle spicy notes of the Renosterbos add complexity to this gin. For a worthy cocktail, splash a dash over tonic water and a lime wheel. **R299 wixworth.com**

### THE SHOE

PureBOOST by Adidas is the ultimate running partner. Inspired and created for those who treat every run as a chance to explore, PureBOOST features a versatile, agile and adaptive design. Anything the city environment has to offer is catered for and runners are able to comfortably endure any challenges. The outsole has been built for the specific requirements of street running, with the rubber extended on the medial side for additional support. **From R2 499 adidas.co.za**

## 3

### THE BOOK

Keen to get out on your mountain bike but lack the time, motivation or balls? This handy tome by two seasoned biking brothers will help you turn your weekend-warrior dreams into reality with tips on equipment, trails, events and safety. **On Your Bike by Chris and Tim Whitfield (Tafelberg R250\*)**

## 4

### THE COFFEE CUP

Your afternoon pick-me-up is bad news for Planet Earth. One takeaway coffee a day is 28 cups tossed into a landfill every month. So make a change and pour yourself a more conscious cuppa with the Ecoffee reusable mug. They're plastic- and toxin-free, and are instead made with biodegradable bamboo fibres and recyclable silicone. What an easy way to cut down on single-use waste. **From R179 ecoffecup.co.za**

## 5

### THE SCENT

A reinterpretation of the eau de toilette, Dior's Sauvage Very Cool Spray is a deconstructed version of the 2015 fragrance. It is masculine not just in its scent – a citrus freshness blends into a lingering earthy muskiness – but also in its convenience as a mist diffuser in a hardy bottle. It's just as good on your body as in the room. **100ml R1 240**
